

For Use with Remote Vac-Packs

Features

- Manifold vacuum gauge for operator to monitor safe vacuum level.
- Attach/release control valve with check valve lockout.
- Adjustable front handlebar.
- Quick-disconnect for easily changing pad attachments.
- Does not include safety reservoir.
- VLS, battery powered vacuum loss sensor and warning system included (ARSL Series only).

Frame Construction

Frames are fully welded with a structural lifting capacity rating of 2200 lb. (998 Kg.) for 3" sq. beams and 5600 lb. (2540 Kg.) for 3" x 6" beams with beam mounting hardware.
