

ANVER Vacuum and Pressure Gauges are some of the finest available for this price on the market today. They are precise, reliable, and they have a handsome chrome bezel. Their modern hi-tech look adds an air of quality to any machinery that features them.

These vacuum and pressure gauges are excellent for any vacuum application in which vacuum and/or pressure levels need to be accurately monitored. These gauges feature two mounting options within a single gauge style, offering a solution for all your application requirements: They can be center back or panel mounted, or they can be mounted below the bezel with an extension. (The model 350 Series features single mounting options.)
