

Features

- Lightweight compact design
- Stainless steel construction
- Reusable: Attach/re-attach clamps
- Easy installation – requires only a screwdriver or hex head wrench
- High-sealing pressure with only 10-15 in/lb of torque

These hose clamps have been designed for vacuum or medium pressure line connections and they should be used in conjunction with ANVER vacuum hose and hose barbs.

Narrow Body Styles (N)

Standard Body Styles (S)

Part Number	Fits Hose I.D. in. (mm)	Body Style
CLP-04-W	1/4 - 3/8 (6.4 - 9.5)	N
CLP-05-W	1/2 (12.7)	N
CLP-08-W	1/2 (12.7)	S
CLP-10-W	3/4 (12.7)	S
CLP-12-W	3/4 (19.1 – 25.4)	S
CLP-16-W	1 – 1 1/4 (25.4 – 31.8)	S
CLP-20-W	1 1/4 – 1 1/2 (31.8 – 38.1)	N
CLP-32-W	1-9/16 – 2 (39.7 – 50.8)	S
CLP-36-W	2 – 2-3/4 (39.7 – 50.8)	S
